1. Overview & Rationale

What Is HTR Connect?

HTR Connect is the third and final service pillar of the Health Transformation Review platform. It was introduced to complete the platform's core value proposition, expressed in the application slogan:

EDUCATE · ADVISE · SUPPORT

Slogan Word	Service	What It Delivers
EDUCATE	HTR Academy	Courses, learning tracks, faculty, webinars, case studies, glossary
ADVISE	HTR Advisory	Strategic consulting, research, IT advisory, independent review, capability assessment, financial audit, regulatory counsel, training
SUPPORT	HTR Connect	Peer cohorts, expert office hours, implementation toolkits, grant finder, pillar circles, direct Q&A

Why Connect Exists

Academy delivers knowledge. Advisory delivers strategy. But there is a well-documented gap in healthcare transformation: organizations that know *what* to do and have been advised *how* to do it still fail at the *doing*. This is the support gap — and it is where most reform efforts collapse.

HTR Connect addresses this gap through three mechanisms:

- 1. **Peer accountability** — Structured cohorts of similar organizations going through the same challenges at the same time
- 2. **Ongoing expert access** — Office hours and Ask HTR provide continuous touchpoints without requiring a full advisory engagement
- 3. **Implementation scaffolding** — Toolkits, grant information, and forums give organizations the practical tools to execute

Strategic Value of Connect

Beyond serving users, Connect provides platform-level benefits:

- **Network effects** — Value compounds as more organizations join; Academy and Advisory are transactional, Connect is relational
- **Retention** — Gives clients a reason to stay engaged between engagements

- **Conversion** — Peer cohorts and office hours surface needs that convert into Advisory engagements
- **Differentiation** — Very few healthcare transformation platforms offer structured peer learning at this depth

2. Service Architecture — The Three Pillars of HTR

All three services are accessible from the **Services** section of the Home Sidebar (left panel), displayed in indigo theming.

Home Sidebar — Services Section

— Academy

— Advisory

— Connect

→ /academy

→ /advisory-hub

→ /connect-hub

← NEW

All three services use the same structural template ([HubPageTemplate](#)) — a header card with badge, title, and subtitle, followed by a sticky tab navigation bar and tab-panel content area.

3. HTR Connect — Services Summary

HTR Connect is organized into six service tabs, each representing a distinct type of support.

Tab 1 — Peer Cohorts

Structured peer-learning groups organized by organization type. Each cohort meets quarterly — virtually — with a shared agenda, benchmarking data from HTR's national health system database, and facilitated discussion led by an HTR faculty member.

Core rules:

- All sessions operate under a standing NDA
- Chatham House rules apply — content discussed may be shared but not attributed
- Competing organizations are not placed in the same cohort
- 10–25 members per cohort to preserve candor

Current cohorts (7):

Cohort	Target Audience	Schedule
State Medicaid & CHIP Agencies	Directors, deputy directors, senior policy staff	Feb · May · Aug · Nov
Critical Access Hospitals	CEOs, CFOs	Jan · Apr · Jul · Oct
Accountable Care Organizations	Executive Directors, CMOs	Mar · Jun · Sep · Dec
Health Plans — Commercial & Medicaid	Medical directors, VP-level executives	Feb · May · Aug · Nov
Federally Qualified Health Centers	CEOs, CMOs	Jan · Apr · Jul · Oct
Academic Medical Centers	CMOs, CIOs, VP-Strategy	Mar · Jun · Sep · Dec
Rural Health Networks & Systems	Network directors, system CEOs	Feb · May · Aug · Nov

Enrollment: 114 member organizations across all cohorts.

Tab 2 — Expert Office Hours

Open-access sessions with HTR faculty and senior advisors. No engagement required. No agenda to submit in advance. Sessions are organized by the Five-Pillar Framework on a rotating monthly schedule.

Key features:

- 60 minutes per session
- All sessions recorded; recordings available to registered Connect members for 90 days
- No restriction on question topics within each pillar session

Session schedule (6 sessions per month):

Session	Pillar	Schedule
Policy & Regulatory Office Hours	Policy	1st Tuesday · 12:00–1:00 PM ET
Health Economics & Finance Office Hours	Economics	2nd Wednesday · 1:00–2:00 PM ET
Technology & Data Governance Office Hours	Technology	3rd Thursday · 2:00–3:00 PM ET
Clinical Quality & Safety Office Hours	Clinical	4th Tuesday · 11:00 AM–12:00 PM ET
Health Equity Office Hours	Equity	Last Friday · 12:00–1:00 PM ET
Open HTR Expert Session	All Pillars	Every other Monday · 4:00–5:00 PM ET

Tab 3 — Implementation Toolkits

Ready-to-deploy templates, calculators, and structured workbooks built from real HTR advisory engagements. These are the actual tools — stripped of client-identifiable data — that HTR advisors use on projects.

Access: Full access included with Connect membership. Custom toolkit development available as an add-on advisory engagement.

Current toolkit library (8 toolkits):

Toolkit	Format	Primary Pillars
Value-Based Care Contract Template Library	Word · PDF	Economics · Policy
FHIR R4 Implementation Checklist	Excel · PDF	Technology · Policy
Health Equity Action Plan Builder	Excel	Equity · Clinical
Total Cost of Care Benchmarking Workbook	Excel	Economics
1115 Waiver Application Framework	Word · PDF	Policy · Economics
ACO REACH Quality Reporting Templates	Excel · Word	Clinical · Economics
Global Budget Modeling Workbook	Excel	Economics · Policy
Workforce Capacity Planning Tool	Excel	Clinical · Economics

New toolkits are added quarterly.

Tab 4 — Grant & Funding Finder

A curated, continuously updated database of federal, state, and philanthropic funding opportunities relevant to health system transformation. HTR researchers monitor CMS NOFA releases, HRSA grant cycles, and foundation program announcements.

Status indicators:

- **Open** — Currently accepting applications
- **Recurring** — Annual or formula-based cycles; monitor for active NOFAs
- **Watch** — Upcoming or invitation-based; subscribe for alerts

Current grant listings (8 entries):

Opportunity	Agency	Amount	Status
-------------	--------	--------	--------

Opportunity	Agency	Amount	Status
CMS ACO REACH Model	CMS	Performance-based	Open
Rural Health Transformation Program	HRSA / CMS	Up to \$25M per state	Open
AHEAD Model Participation	CMMI	\$1B+ across 6 states	Watch
SAMHSA CCBHC Expansion Grants	SAMHSA	\$2M–\$4M per grantee	Recurring
HRSA Health Center Quality Improvement	HRSA BPHC	Performance-based	Recurring
CDC Public Health Infrastructure Grants	CDC	\$3.5B program	Recurring
RWJF Health Systems Innovation Initiative	Robert Wood Johnson Foundation	\$500K–\$2M	Open
Commonwealth Fund State Health System Performance	The Commonwealth Fund	Up to \$1M	Watch

Connect members can subscribe to pillar-specific email alerts when new opportunities are added.

Tab 5 — Pillar Circles

Asynchronous discussion forums organized by the Five-Pillar Framework. Moderated by HTR faculty and senior advisors.

Rules:

- Anonymous posting is not permitted; all members engage under their professional identity
- Each circle maintains a topical focus and minimum standards for discourse
- An HTR expert responds to questions within 48 hours

Active circles (5):

Circle	Pillar	Members	Posts/Month
Policy & Regulatory Circle	Policy	342	89
Economics & Finance Circle	Economics	218	56
Technology & Data Circle	Technology	267	71
Clinical Quality Circle	Clinical	195	48
Health Equity Circle	Equity	283	94

Total: 1,305 members across all circles.

Tab 6 — Ask HTR

Direct Q&A with HTR's advisory team. Every answer is written by a named HTR advisor — not a chatbot.

How it works:

1. Connect member submits a question via the platform
2. HTR routes the question to the appropriate practice lead
3. Named advisor responds within 48 business hours
4. With member permission, the answered question is added to the public Q&A library

Private questions: Questions involving confidential organizational data can be marked private — answered but not published.

Current library stats: 247 questions answered and publicly catalogued, organized by pillar and topic.

Featured Q&A examples (as of v1.0):

- *Policy:* "What are the key regulatory considerations for launching an MSSP ACO in a predominantly rural state?" — answered by HTR Policy Practice Lead
- *Technology:* "How should we sequence our FHIR R4 compliance roadmap given CMS interoperability and prior authorization rules?" — answered by HTR Health IT Practice Lead
- *Economics:* "What financial benchmarking methodology does HTR use when helping a state design a hospital global budget?" — answered by HTR Health Economics Practice Lead

4. User Guide — Navigating HTR Connect

Accessing HTR Connect

HTR Connect is accessible from the **Home Sidebar** under the **Services** section:

Home Sidebar → Services → Connect

Direct URL: </connect-hub>

Tab Navigation

Once inside the Connect Hub, use the sticky tab bar near the top of the page to switch between the six service tabs. The active tab is highlighted with a dark top border.

Tab IDs and their URL query parameters:

Tab Label	URL
Peer Cohorts	/connect-hub?tab=cohorts
Office Hours	/connect-hub?tab=office-hours
Toolkits	/connect-hub?tab=toolkits
Grant Finder	/connect-hub?tab=grants
Pillar Circles	/connect-hub?tab=forums
Ask HTR	/connect-hub?tab=ask

Tab selections are URL-persistent — bookmarking or sharing the URL will land the recipient on the correct tab.

Navigation Back to Home

Each hub page includes a back-link at the top of the header card. For Connect, it reads **← Home** and returns to [**/**](/).

Call-to-Action Links

Several panels include action buttons. These currently link to placeholder routes that will be wired to backend functionality in a future release:

Button	Destination Route
Apply for Membership	/connect/apply
Register (Office Hours)	/connect/register-office-hours
Access Toolkit	/connect/toolkits

Button	Destination Route
Subscribe to Alerts	/connect/alerts
Join Circle	/connect/forums
Submit a Question	/connect/ask
Browse Full Q&A Library	/connect/ask?browse=true

Note: These routes are not yet implemented. They are defined as link targets in the UI but have no backend or page behind them as of v1.0. See Section 8 (Future Roadmap).

5. Membership — Rules & Application

Cohort Membership

Cohort membership is the primary membership category within HTR Connect. It provides:

- Quarterly virtual convenings with peer organizations
- Access to HTR's national health system benchmarking database
- Facilitated discussion with an HTR faculty member
- A shared cohort dashboard (planned — see Section 8)
- Private channel access (planned)

Cohort size limits: Each cohort is capped at 10–25 organizations to preserve the quality of peer exchange and maintain candor.

Competing organization policy: HTR reserves the right to decline applications from organizations that compete directly with existing cohort members. Competition is assessed at the time of application.

Application cycle: New applications are reviewed each quarter, aligned with cohort convening schedules.

Application route: [/connect/apply](#) (not yet implemented)

Non-Cohort Access

Office Hours, the Pillar Circles, and Ask HTR are accessible to all Connect members regardless of cohort enrollment. These three services do not require separate application — membership in Connect provides access.

Membership Levels (Planned)

As of v1.0, membership tiers are not yet formally defined in the application. The following is the intended structure for a future release:

Tier	Includes
Connect Essential	Office Hours · Ask HTR · Pillar Circles
Connect Full	All Essential + Toolkits + Grant Finder
Connect Cohort	All Full + Peer Cohort placement

6. Content Inventory

This section provides a complete inventory of all static content defined in [ConnectHubClient.tsx](#) as of v1.0. This is the source of truth for what is currently displayed in the application.

Cohorts (7)

1.	State Medicaid & CHIP Agencies	accentBg: bg-sky-50
2.	Critical Access Hospitals	accentBg: bg-rose-50
3.	Accountable Care Organizations	accentBg: bg-indigo-50

7. Technical Reference

File Locations

File	Path	Purpose
Hub page	frontend/app/connect-hub/page.tsx	Next.js page wrapper; sets metadata
Hub client	frontend/app/connect-hub/ConnectHubClient.tsx	All tab panels and data; main component
Sidebar entry	frontend/components/HomeSidebar.tsx	Navigation link; uses UsersIcon
Hub template	frontend/components/templates/HubPageTemplate.tsx	Shared template (used by all three services)

Route

```
/connect-hub
/connect-hub?tab=cohorts
/connect-hub?tab=office-hours
/connect-hub?tab=toolkits
/connect-hub?tab=grants
/connect-hub?tab=forums
/connect-hub?tab=ask
```

Page Metadata (page.tsx)

```
export const metadata = {
  title: 'HTR Connect | Peer Cohorts, Office Hours & Implementation Support',
  description:
    'Peer cohorts by organization type, expert office hours across the Five Pillars, implementation toolkits, grant finder, pillar circles, and direct Q&A with HTR advisors.',
}
```

Component Architecture (ConnectHubClient.tsx)

The file follows the same pattern as `AdvisoryHubClient.tsx`. All data and panel components are defined inline within the single file.

```
ConnectHubClient.tsx
├── COHORTS[]           – Array of 7 cohort objects
├── PeerCohortsPanel    – Renders cohort grid + membership CTA
├── OFFICE_HOURS[]      – Array of 6 session objects
├── OfficeHoursPanel    – Renders session list
├── TOOLKITS[]          – Array of 8 toolkit objects
```

— ToolkitsPanel	– Renders toolkit grid + custom toolkit CTA
— GRANTS[]	– Array of 8 grant objects
— GrantFinderPanel	– Renders grant list + alert subscription CTA
— CIRCLES[]	– Array of 5 forum circle objects
— ForumsPanel	– Renders circle cards
— FEATURED_QA[]	– Array of 3 Q&A objects
— AskHTRPanel	– Renders submit CTA + featured Q&A list
— CONNECT_STATS[]	– 4 headline stats shown in subtitle
— ConnectHubClient	– Default export; passes tabs to HubPageTemplate

Color Theme

HTR Connect uses **teal** as its primary accent color throughout the hub. This distinguishes it from:

- Academy: indigo (default HubPageTemplate)
- Advisory: fuchsia

Usage	Class
Badge	<code>bg-teal-50 text-teal-700 border border-teal-100</code>
Panel headers	<code>border-teal-200 bg-teal-50</code>
Stat pills	<code>bg-white border-teal-200 text-teal-600</code>
CTA buttons	<code>bg-teal-600 hover:bg-teal-700 text-white</code>
Back-link hover	<code>hover:text-teal-600</code>

Sidebar Entry

Added to `HomeSidebar.tsx` in the **Services** section (indigo panel), as the third item after Academy and Advisory:

```
import { UsersIcon } from "@heroicons/react/24/outline";

<Link href="/connect-hub" ...>
  <UsersIcon className="w-5 h-5" />
  Connect
</Link>
```

Active state: `bg-indigo-50` (matches Academy and Advisory).

Tab Configuration

Tabs are passed to `HubPageTemplate` as a `TabConfig[]` array:

```
tabs={ [
  { id: 'cohorts',      icon: <span>👥 </span>, label: 'Peer Cohorts',
content: <PeerCohortsPanel /> },
  { id: 'office-hours', icon: <span>🕒 </span>, label: 'Office Hours',
content: <OfficeHoursPanel /> },
  { id: 'toolkits',     icon: <span>🔧 </span>, label: 'Toolkits',
content: <ToolkitsPanel /> },
  { id: 'grants',       icon: <span>📄 </span>, label: 'Grant Finder',
content: <GrantFinderPanel /> },
  { id: 'forums',       icon: <span>💬 </span>, label: 'Pillar Circles',
content: <ForumsPanel /> },
  { id: 'ask',          icon: <span>? </span>, label: 'Ask HTR',
content: <AskHTRPanel /> },
]
```

HubPageTemplate Props Used

```

  badgeLabel="HTR Connect"
  badgeClass="bg-teal-50 text-teal-700 border border-teal-100"
  title="HTR Connect"
  subtitle={`Peer cohorts, expert office hours, implementation toolkits, and
            direct access
            to HTR advisors – ${statsStr}`}
  backLink="/"
  backLabel="← Home"
  backLinkHoverClass="hover:text-teal-600"
```

No External Dependencies

HTR Connect introduces no new npm packages, API calls, or data fetching. All content is static, defined inline in `ConnectHubClient.tsx`. This is consistent with the current Academy and Advisory hub pattern.

8. Future Roadmap

The following features are planned for future releases. They are referenced in the current UI as placeholder links but have no backend implementation as of v1.0.

Phase 2 — Backend Wiring (High Priority)

Feature	Route	Description
Cohort membership application	<code>/connect/apply</code>	Form collecting org name, org type, contact info, cohort preference; routed to HTR staff for review
Office hours registration	<code>/connect/register-office-hours</code>	Session-specific registration form; confirmation email with calendar invite
Toolkit download / access	<code>/connect/toolkits</code>	Authenticated download page; tracks member access per toolkit
Grant alert subscription	<code>/connect/alerts</code>	Email preference form; pillar and org-type filters
Forum access	<code>/connect/forums</code>	Authenticated community platform; requires identity verification
Ask HTR submission	<code>/connect/ask</code>	Question submission form with pillar tag, public/private flag, and character limit
Q&A library browse	<code>/connect/ask?browse=true</code>	Searchable, filterable public library of answered questions

Phase 3 — Live Data & CMS Integration

Feature	Description
Grant database refresh	Replace static <code>GRANTS[]</code> array with CMS-managed entries; add deadline alerts and archiving
Office hours live calendar	Pull from a calendar API; show real upcoming session dates
Cohort dashboard	Shared benchmarking dashboard per cohort, integrated with HTR's national health system database

Feature	Description
Q&A library CMS	Move FEATURED_QA [] to Sanity CMS so advisors can publish answers without code changes
Toolkit versioning	Track toolkit versions; notify members when a toolkit is updated

Phase 4 — Community Features

Feature	Description
Member directory	Opt-in directory of Connect member organizations by type and state
Cohort private channels	Persistent async communication channel per cohort (between convenings)
Annual Summit	In-person convening of all cohort members; event registration and agenda in-platform
Mentorship matching	Pair senior executives with emerging leaders across member organizations

Content Maintenance Notes

The following items in **ConnectHubClient.tsx** require periodic review by HTR staff:

- **Grant statuses** — Open/Watch/Recurring flags should be reviewed quarterly; deadlines must be kept current
- **Office hours schedule** — Any changes to frequency, day, or time must be reflected in **OFFICE_HOURS []**
- **Member/post counts** in **CIRCLES []** — Placeholder numbers; should be replaced with live data in Phase 3
- **Stat figures** in **CONNECT_STATS []** — The four headline numbers (114 orgs, 7 cohorts, 247 Q&As, 8 toolkits) are placeholder/aspirational; update as actual membership grows
