

Quick-Start Guide: Medicaid / Compliance Officer

Health Transformation Review (HTR) Platform

Your Role on HTR

As a Medicaid or compliance officer, HTR gives you:

- Authoritative coverage of Medicaid rules, federal mandates, and state program requirements
 - Simulation tools for eligibility, work requirements, and program impact modeling
 - Real-time regulatory alerts and rule tracking
 - AI-powered research for compliance questions
-

Step 1: Set Your Role

At /welcome, click "**Medicaid / Compliance Officer**".

The AI will open ready to help with Vermont Medicaid eligibility rules, Act 167 compliance requirements, regulatory updates, or any compliance question you raise.

Step 2: Your 5 Most Valuable Destinations

1. Vermont Medicaid — /vermont-medicaid

Complete coverage of Vermont's Medicaid program: eligibility rules, covered populations, benefit structure, waiver programs, and current policy status.

2. Medicaid Eligibility Simulator — /medicaid-eligibility-simulator

Test eligibility determinations across different income levels, household compositions, and categorical groups. Essential for:

- Staff training on eligibility rules
- Modeling impact of proposed rule changes
- Constituent casework support

3. Policy Hub: Regulation — /policy/regulation

Track federal regulatory activity: CMS proposed and final rules, FHHS mandates, and congressional action affecting Medicaid and compliance requirements.

4. Compliance Hub — /operations/compliance

Integrated coverage of quality, compliance, and risk management across healthcare organizations. Includes HIPAA, anti-kickback, Stark Law, and value-based care compliance considerations.

5. Vermont Program Pages

- **Vermont Act 167** (/vermont-act-167) — 2022 healthcare transformation compliance requirements
- **Vermont Act 68** (/vermont-act-68) — 2025 updates and obligations

- **Vermont RHT Program** (/vermont-rht-program) — Rural Health Transformation participation requirements
 - **CMS AHEAD Model** (/ahead-model) — Vermont's participation and obligations
-

Step 3: Key Workflows

Researching an Eligibility Question

1. Start with the **Medicaid Eligibility Simulator** to test the specific scenario
2. Cross-reference with **Vermont Medicaid** for authoritative program rules
3. Ask the AI: *"What are the income eligibility rules for Vermont Medicaid for a family of 3 with mixed immigration status?"*
4. Check /policy/regulation for any recent rule changes affecting eligibility

Monitoring Regulatory Changes

1. Set up **Policy Alerts** at /connect/alerts — select Regulation, Medicaid, and Compliance topics
2. Check **The Wire** (/the-wire) daily for regulatory news
3. Ask the AI weekly: *"What are the most significant Medicaid regulatory changes in the past 30 days?"*
4. Save key rule pages to **My Library** (/saved) for quick reference

Assessing Vermont Act 167 / Act 68 Compliance

1. Read the **Act 167 overview** at /vermont-act-167
2. Use the **Act 167 Simulator** (/vermont-act-167/simulator) to model compliance scenarios
3. Repeat for **Act 68** (/vermont-act-68) and its simulator
4. Ask the AI: *"What reporting requirements does Act 167 impose on critical access hospitals?"*

Work Requirements Analysis

1. Go to **Work Requirements Calculator** (/research-lab/policy-quality?tab=medicaid-wr)
2. Model enrollment impact under different work requirement structures
3. Analyze disenrollment projections by population segment
4. Cross-reference with **H.R. 1 Cliff Scenario** (?tab=hr1-cliff) for federal context

Staff Training on Eligibility

1. Use the **Medicaid Eligibility Simulator** as a training tool — run scenarios with staff
 2. Build case studies around real eligibility questions your team encounters
 3. Use the **Medicaid Learning Center** (/academy/medicaid) for structured education
 4. Access the **Medicaid Glossary** (/academy/medicaid/glossary) for terminology training
-

Step 4: Research Lab Tools for Compliance

Tool	Location	Use Case
Medicaid Eligibility Simulator	/medicaid-eligibility-simulator	Eligibility determination testing
Work Requirements Calculator	policy-quality?tab=medicaid-wr	Work requirement impact modeling
H.R. 1 Cliff Scenario	?tab=hr1-cliff	Federal Medicaid budget scenarios

Tool	Location	Use Case
Policy Simulator	?tab=policy	Rule change impact analysis
Hospital Financial Stress Test	?tab=scorecard	Medicaid rate cut impact on hospitals
Actuarial Lab	?tab=actuarial	Capitation and cost modeling

Step 5: Academy Resources for Compliance

Navigate to **Academy** (/academy) for:

- **Medicaid Learning Center** (/academy/medicaid) — structured Medicaid education modules
- **Medicaid Glossary** (/academy/medicaid/glossary) — searchable terminology reference
- **HTR Glossary** (/academy/glossary) — broader healthcare policy and regulatory terms
- **Case Studies** (/academy/case-studies) — real-world compliance examples

Getting Help

- **AI Analyst:** Ask any compliance or regulatory question
- **Ask HTR:** /connect/ask — submit complex compliance questions to experts
- **Advisory Hub:** /advisory-hub — regulatory counsel and compliance audit services
- **Policy Alerts:** /connect/alerts — real-time regulatory monitoring
- **Voice:** Press **⌘⇧V** for hands-free research while reviewing documents
