

Feature Guide: HTR Academy

Health Transformation Review (HTR) Platform

What Is HTR Academy?

HTR Academy is the platform's education center. It provides structured learning — courses, webinars, case studies, learning tracks, and a glossary — built on the same Six-Pillar Framework that organizes the rest of the platform.

Entry point: /academy

Academy Sections

1. Personalized Learning — /academy/personalized-learning

An AI-driven engine that builds a custom learning path based on:

- Your selected role (executive, clinician, policy analyst, etc.)
- Your stated knowledge gaps and goals
- Your progress through existing content

How to use:

1. Navigate to /academy/personalized-learning
 2. Answer the short intake questions about your role and goals
 3. Receive a customized curriculum with prioritized content
 4. Your path updates as you complete content and as new material is published
-

2. Learning Tracks — /academy/tracks

Structured multi-course sequences for specific professional roles. Each track culminates in a verifiable credential.

Current tracks include:

- Health Economist Track
- Compliance Officer Track
- CMO / Clinical Leader Track
- Policy Analyst Track
- Health Tech Leader Track

How to use:

1. Browse tracks at /academy/tracks
 2. Click a track to see the full curriculum and estimated time commitment
 3. Enroll and complete modules in sequence
 4. Access your credential upon completion from /account/courses
-

3. Courses — /academy/courses

Individual courses on specific topics. Each course contains multiple modules with content, exercises, and assessments.

How to use:

1. Browse at </academy/courses> — filter by pillar, difficulty, or topic
 2. Click a course to see the syllabus, faculty, and estimated time
 3. Enroll — your enrollment is tracked at </account/courses>
 4. Access individual modules at [/academy/modules/\[slug\]](/academy/modules/[slug])
 5. Download certificates upon completion
-

4. Webinars — </academy/webinars>

Live and recorded expert-led sessions. Webinars bring in domain practitioners for structured presentations and live Q&A.

How to use:

1. Browse upcoming and past webinars at </academy/webinars>
 2. Register for upcoming webinars (subscribers only)
 3. Access recordings immediately after the live session
 4. Individual webinar pages include slides, transcripts, and AI-generated summaries
-

5. Case Studies — </academy/case-studies>

Real-world analyses of healthcare transformation initiatives. Case studies cover:

- APM implementations and their financial outcomes
- State Medicaid waiver programs (what worked, what didn't)
- AI and digital health deployments in health systems
- Equity initiative design and outcomes
- Vermont-specific program analyses

How to use:

1. Browse at </academy/case-studies>
 2. Filter by pillar, geography, or topic
 3. Each case study includes background, key decisions, outcomes, and lessons learned
 4. The AI Analyst can reference case studies when answering your questions
-

6. Glossary — </academy/glossary>

Searchable definitions for 500+ healthcare policy, economics, clinical, and technology terms. Authoritative definitions maintained by HTR's research team.

How to use:

- Search by term using the search bar
 - Browse alphabetically or by pillar
 - Click any term for the full definition with contextual examples
 - Use it alongside AI Analyst sessions when unfamiliar terms appear
-

7. Faculty Directory — </academy/faculty>

Profiles of the domain experts who produce HTR Academy content — their credentials, areas of expertise, and associated courses and webinars.

8. Medicaid Learning Center — </academy/medicaid>

A dedicated sub-section for Medicaid-specific education:

- **Medicaid Learning Center** (</academy/medicaid>) — overview, modules, and resources

- **Medicaid Glossary** (/academy/medicaid/glossary) — Medicaid-specific terminology

Best for: Compliance officers, state Medicaid staff, enrollment navigators, policy analysts

Tracking Your Progress

All Academy activity is tracked in your account:

- **My Courses** (/account/courses) — enrolled courses, completion status, certificates
- **My Library** (/saved) — bookmarked content including case studies and webinars
- **Personalized Learning** — your AI-generated curriculum updates as you complete content

Academy Tips

Tip	Details
Start with Personalized Learning	Get a prioritized curriculum instead of browsing randomly
Use the Glossary alongside AI chats	When the AI uses an unfamiliar term, look it up immediately
Bookmark webinar recordings	Recordings are available immediately — save them to My Library
Combine case studies with tools	After reading a case study, model a similar scenario in the Research Lab
Follow a Learning Track for credentials	Tracks give you a credential — individual courses don't

Access Levels

Content Type	Public	Subscriber
Glossary	Yes	Yes
Case Study listings	Yes	Yes
Case Study full content	Limited	Full
Courses	Browse only	Enroll + complete
Webinar recordings	Limited	Full archive
Live webinar registration	No	Yes
Learning Tracks	Browse only	Enroll
Personalized Learning	No	Yes
Certificates	No	Yes
