

Quick-Start Guide: Investor / Consultant

Health Transformation Review (HTR) Platform

Your Role on HTR

As a healthcare investor or consultant, HTR gives you:

- Market intelligence on consolidation, M&A activity, and investment trends
 - Financial modeling and benchmarking tools
 - State-level hospital and market data
 - AI-powered research for due diligence and client work
-

Step 1: Set Your Role

At `/welcome`, click "**Investor / Consultant**".

The AI will open ready to help with market trends, M&A activity, financial benchmarks, or any deal or engagement question you bring.

Step 2: Your 5 Most Valuable Destinations

1. Economics Hub — `/economics`

Market intelligence layer:

- **Market & Finance** (`/economics/market`) — consolidation, payer-provider dynamics, capital flows
- **Value-Based Care Models** (`/economics/value`) — APM mechanics, risk transfer economics
- **Healthcare Investment Trends** (`/economics/investment`) — venture, private equity, government spending patterns
- **Labor & Workforce** (`/economics/cea`) — labor economics affecting deal assumptions

2. Investment Tracker — `/investment-tracker`

Track healthcare investment activity: venture rounds, PE acquisitions, strategic M&A, government grant programs. Filter by sector, geography, and deal type.

3. 50-State Dashboard — `/dashboard`

Market mapping tool: hospital landscape, payer mix, Medicaid penetration, and financial health metrics across all states. Essential for market entry analysis and portfolio monitoring.

4. HTR Transformation Readiness Simulator — `/htr-simulator`

Run a readiness assessment on a target or client organization. Use it to identify operational and financial vulnerabilities before an engagement or deal.

5. Research Lab: Payment Models — `/research-lab/payment-models`

- **APM Design Lab** — understand contract structures in target markets
- **Shared Savings Calculator** — project financial performance of VBC arrangements
- **Global Budget Transition Modeler** — assess state-level budget reform trajectories

- **Hospital Financial Stress Test** (/research-lab/policy-quality?tab=scorecard) — model reimbursement risk on specific targets

Step 3: Key Workflows

Market Entry Analysis

1. Use the **50-State Dashboard** to assess market structure in target geography
2. Check **Market & Finance** analysis at /economics/market
3. Review state program pages (e.g., CalAIM, Oregon CCO, AHEAD Model) for regulatory environment
4. Ask the AI: *"What is the competitive and regulatory landscape for health systems in [state]?"*
5. Check the **Investment Tracker** for recent deal activity in the space

Target / Client Due Diligence

1. Run the **HTR Transformation Readiness Simulator** for organizational assessment
2. Pull the target's state data from the **50-State Dashboard**
3. Use the **Hospital Financial Stress Test** to model reimbursement risk
4. Ask the AI: *"What are the key financial risks for a rural hospital in Vermont operating under global budget constraints?"*
5. Review **Operations hub** for workforce and revenue cycle benchmarks

Sector Intelligence for Fund or Client

1. Set policy alerts at /connect/alerts for sectors you monitor
2. Check **The Wire** (/the-wire) daily for news
3. Ask the AI weekly: *"What are the most significant policy and market developments in digital health / VBC / Medicaid this week?"*
4. Bookmark key analysis pages to **My Library** for client reporting

VBC Contract Valuation

1. Go to **APM Design Lab** (/research-lab/payment-models?tab=apm-design)
2. Model the contract structure and risk corridor
3. Run **Shared Savings Calculator** (?tab=apm-calc) for financial projections
4. Model provider financial impact via **Hospital Financial Stress Test**
5. Validate population assumptions with the **Population Health Modeler**

Step 4: Research Lab Tools for Investors & Consultants

Tool	Location	Use Case
APM Design Lab	payment-models?tab=apm-design	VBC contract analysis
Shared Savings Calculator	?tab=apm-calc	APM financial projection
Hospital Financial Stress Test	policy-quality?tab=scorecard	Provider margin analysis
Global Budget Modeler	payment-models?tab=gb-transition	State reform trajectory
Transformation Scorecard	knowledge-workspace?tab=scorecard	Org readiness assessment
CEA Calculator	payment-models?tab=cea	Intervention ROI modeling
Actuarial Lab	policy-quality?tab=actuarial	Insurance / capitation analysis
Innovation Leaderboard	knowledge-workspace?tab=leaderboard	Benchmarking innovation leaders

Step 5: Advisory Services

HTR offers expert advisory services for consultants and investors:

Navigate to **Advisory Hub** (/advisory-hub) for:

- **Strategic Consulting** — market analysis, growth strategy
- **Custom Research** — proprietary market and policy research
- **Financial Audit** — healthcare financial analysis and benchmarking
- **Independent Review** — third-party organizational assessment
- **Capability Assessment** — organizational transformation readiness

Book a call at /advisory/contact.

Getting Help

- **AI Analyst:** Market intelligence, policy analysis, financial modeling support
 - **Ask HTR:** /connect/ask — submit specific research questions
 - **Advisory Hub:** /advisory-hub — full consulting engagement
 - **Voice:** Press **⌘⇧V** for hands-free queries during client calls or analysis
