

Choices for Care Options At-A-Glance

(Updated 9/8/2025)

Choices for Care offers long-term services and supports to adult Vermonters who require a nursing home level of care and who need Medicaid to help pay for their care. If an individual is found clinically and financially eligible, **they can choose** where they want to receive their services.

For questions about **clinical eligibility**, contact your local Long-Term Care Clinical Coordinator nurse by calling 1-802-241-0294.

For questions about **financial eligibility** or to receive an application, **call 1-802-476-0100** (or toll-free at 1-833-840-0061) for the Department of Vermont Health Access. Be sure to tell the agent that you have questions about "Long-Term Care Medicaid." Or apply online at: dvha.vermont.gov/members.

Home-Based options

- **Flexible Choices** – A case manager from the local Area Agency on Aging helps create an allowance and budget for services that an individual or an eligible surrogate manages. The individual or surrogate act as the employer and work within their budget to coordinate services to help stay at home.
- **Home-Based** – A case manager from the local Area Agency on Aging helps coordinate a plan with the individual that may include personal care, respite, and/or companionship care, adult day services, personal emergency response, and some assistive devices or home modification funds. Care may be provided through a local certified home health or home care agency, or, if eligible, individuals may hire their own caregivers through the consumer or surrogate-directed option.
- **Adult Family Care (AFC)** – A case manager from the local Area Agency on Aging and an Authorized Agency helps people receive their care and services in an unlicensed family home-provider setting. The Authorized Agency is paid a daily tier rate for the home provider and other long-term services and supports, as well as for work with the participant and home provider.

Enhanced Residential Care (ERC) option

- This option provides 24-hour care and supervision in approved VT licensed Level III Residential Care Homes or Assisted Living Residences. Services include personal care, housekeeping, meals, activities, nursing oversight and medication management. For individuals in the Enhanced Residential Care option, the home may also bill Medicaid for Assistive Community Care Services (ACCS) payments as well. The individual pays for room and board. For a list of Enhanced Residential Care providers and more information, review the [Assisted Living Residence Directory](#) or [Residential Care Home Directory](#).

Nursing Home option

- This option provides 24-hour nursing care, supervision, therapies, personal care, meals, nutrition services, activities, and social services provided by a VT licensed Nursing Facility. For a list of nursing homes and more information, review the [Nursing Home Directory](#).

For more information about the Choices for Care program and its service options, contact your local Department of Disabilities, Aging and Independent Living (DAIL) Long-Term Care Clinical Coordinator at 802-241-0294. You can find program information about Choices for Care on the Adult Services Division website: asd.vermont.gov/services/choices-for-care-program
